

# From Outbreaks to Outcomes— Tackling Emerging Infectious Diseases

**Theme: Emerging Infectious Diseases: Strengthening Preparedness Through Global Innovation and Action**

## Tentative Program

### Day 1: Outbreaks, Pathogens & Global Hotspots

08:00 – 09:00 | Registration & Welcome Coffee

09:00 – 09:30 | Opening Ceremony & Keynote

Keynote Topic: Pandemics of the Future: Preparedness in an Uncertain World

09:30 – 11:00 | Session 1: Viral Hemorrhagic Fevers – Emerging Hotspots

11:00 – 11:15 | Coffee Break

11:15 – 12:45 | Session 2: Vector-Borne Viruses on the Rise

12:45 – 14:00 | Networking Lunch

14:00 – 15:30 | Session 3: Respiratory & Zoonotic Spillovers

15:30 – 15:45 | Coffee Break

15:45 – 16:30 | Panel Discussion: Outbreak Realities – Lessons from the Frontline

What went right—and wrong—in Ebola, COVID-19, and Cholera responses

Coordinating field teams during infectious outbreaks

Real-time data challenges in fragile settings

Protecting healthcare workers and community trust during crisis

16:30 – 17:00 | Flash Poster Talks & Networking

END of DAY 1

### Day 2: Solutions, Innovations & Future Frontiers

08:30 – 09:00 | Morning Coffee & Networking

09:00 – 10:30 | Session 5: One Health & Environmental Interfaces

10:30 – 10:45 | Coffee Break

10:45 – 12:15 | Session 6: Diagnostics, Genomics & Vaccines

12:15 – 13:30 | Lunch & Poster Presentations

13:30 – 15:00 | Session 7: Regional & Re-Emerging Diseases

15:00 – 15:15 | Coffee Break

15:15 – 16:30 | Session 8: Policy, Equity & Preparedness

16:30 – 17:15 | Closing Panel Discussion

Panel Topic: Disease X and Beyond: Building the Global Firewall Against EIDs

Predicting and preparing for unknown pathogens

Integrating technology and policy for early response

Building public trust and fighting misinformation

17:15 – 17:30 | Closing Remarks & Certificate

Distribution

FOO 2025 offers a comprehensive two-day agenda exploring the full spectrum of emerging and re-emerging infectious diseases. Day 1 focuses on global hotspots and outbreak dynamics, featuring expert-led sessions on viral hemorrhagic fevers, vector-borne diseases, respiratory and zoonotic spillovers, and antimicrobial resistance. The day culminates in a frontline-focused panel discussing real-world outbreak responses. Day 2 shifts to solutions and future strategies, highlighting One Health integration, cutting-edge diagnostics and vaccines, regional disease threats, and global preparedness policies. A visionary closing panel explores “Disease X” and how to build resilient systems to confront the pandemics of tomorrow.

Register before the early-bird deadline and receive 1-day complimentary accommodation at our venue hotel!

**August 28–29, 2025**
